

## Our laboratories provide following research services:

	Property	Test method
<b>Physico - chemical</b>	Amount and identification of content	PN-EN ISO 3451
	Dimensions	PN-EN ISO 3126
	Melt mass flow rate (MFR) <sup>1)</sup>	PN-EN ISO 1133
	Shrinkage	PN-EN ISO 2005
	Density	PN-EN ISO 1183
	Level of crosslinking in PE-X	PN-EN 579
<b>Mechanical</b>	Resistance for internal pressure in constant temperature	PN-EN 921
	Charpy impact strength <sup>2)</sup>	PN-EN ISO 9854

1) for the scope of temperatures 190-300 oC and loads 2,16 - 10,00 kg

2) energy 15J
